

Soil Erosion Research Under a Changing Climate

Aguadilla, Puerto Rico, USA

January 12, 2023

Thursday Plenary Session

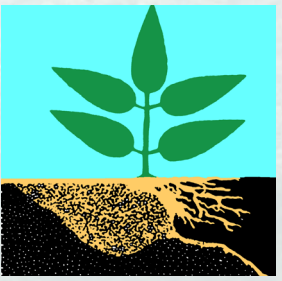

Remaining Week's Program at a Glance

- **Thursday** – Keynote Speaker, Oral Technical Sessions, Afternoon Panel Session, Group Dinner in the Evening
- **Friday** – Keynote Speaker, Oral Technical Sessions, Last Landslide Workshop Session, Closing Plenary Session

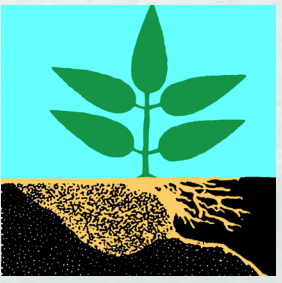

Announcements

- **Breaks and lunch today and Friday will be in the Brisas Terrace.**
- **This evening is our Group Dinner, also in the Brisas Terrace.**
- **The Panel session this afternoon is being led by ARS National Program Leader Dr. Teferi Tsegaye, and features 8 erosion scientists. Please plan to attend.**
- **If you would like to earn Continuing Education Credits for participating at the Symposium, please see Jessica about that.**

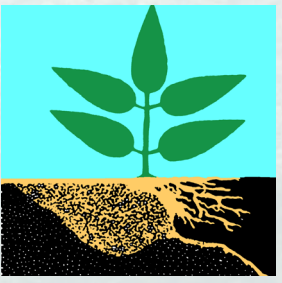

Announcements (cont.)

- **We have 5 talks that the presenters in China prepared as videos, since they were unable to obtain visas to travel. 4 of these are on the USB drive – I did not obtain the 5th until Monday this week.**
- **If you would like to view any of the 4 videos, they are on the USB. If you would like the 5th one, I have it on my PC, and can share it with you if you ask me. That one is “23078 - “Upslope Sediment-laden Flow Impacts on Ephemeral Gully Erosion: Evidences from Field Monitoring and Laboratory Simulation” by Dr. Fenli Zheng.**
- **On Monday, one of the videos was not played during the session in the Marbella Room:**
 - 11:30 a.m. – 11:45 a.m. Qing Li, Northwest A&F University, Yangling, China**
 - 23101 - “Quantitative Evaluation of the Impacts of Climate Change and Human Activities on Wind Erosion: A Case Study of Inner Mongolia in China”**
- **We are going to play that one today in the morning session on “Remote Sensing and Geospatial Technology in Erosion Quantification and Prediction” with moderator Grizelle González in the VIP Club from 11:45 a.m. – 12:00 p.m.**

Announcements (cont.)

- I would like to place PDFs of all presentations at the Symposium website after the meeting. Could you please give your Powerpoint presentation to me today or tomorrow, or email it to me next week?
- I am also planning to review and post some of the pictures that I've taken to the Symposium website after the meeting when I have time to go through them all.
- If you have some good photos you'd like to share, please email them to me. Thanks!

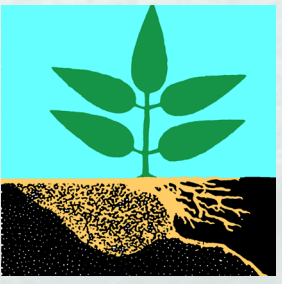

We will be posting some pictures from the Symposium at the website after the meeting.

Any Questions??

Keynote Speaker – Dr. Bob Stallard

**“Extreme Rainstorms and
Landslides in the Panama Canal
Watershed - Lessons Learned from
the Storms of December, 2010”**
